Breakfast Offered by the Hotel. Continental breakfast (EUR 9.60) or full breakfast buffet (EUR 17), to be paid at the door.	Restaurant "Da Capo" Enjoy the exquisite dishes from the regional and international cuisine.	Piano Bar Experience the world of international cocktails and choice drinks, enjoy wines, beer and snacks.	Art Show This year's Art Show again presents a multitude of international artists. See your favorites, bid on whatever you like, and buy art for your home!
Your First Furry Convention (<i>Uncle Kage</i>) What to expect at a furry convention, how to behave, pitfalls to avoid, and just what the heck are all those black sketchbooks about, anyway?	Mechanical Effects for Puppets and Fursuits (Furvan & Tioh) Do you want to build a puppet- or fursuit-head that has more than one expression? There are lots of cheap and easy ways to build mechanics that can change the look of your fursuit/puppet in seconds. Several examples will be shown that explain how to build movable eyelids, eyebrows, muzzle and ears.	Qi Gong - Relax and Enjoy (Rapante) Ever wondered what an "inner martial art" is? Always wanted to know, what all those countless people in Chinese parks are doing on an early morning? Want to start your convention day relaxed, smiling and full of energy? Then this Sig is for you.	Artists' Lounge Do you like spending your evening around other artists, drawing and exchanging techniques? Then this social event, which takes place every evening, is the right place for you being all creative!
Meet the Guest of Honor (GoH) Come say hello to the Guest of Honor Jim Martin and get an introduction to his impressive work. Throughout the years he has worked extensively as a puppeteer, director and producer on American television. He has also won an Emmy 5 times for his work on Sesame Street! Jim Martin will give a presentation on some of the things he has worked on, but this is also a Q&A session where you can ask him anything you want.	Banner Brawl (Twll) Eight markers, six artists, two canvases and one and a half lions. The Brawl is back and there's a tie to break: can the girls pull in to the lead or will the boys avenge their shameful defeat at ConFuzzled? Be there or be elsewhere for another thrilling bout of Banner Brawl!	Fursuit Gameshow Preliminaries (Furvan & Atkelar) This year marks the sixth installment of the Fursuit Gameshow! As in the previous years, we will not be able to fit everyone on the main stage for the finals, so we have to do preliminary rounds. This gives everybody who wants the chance to participate! So be sure to sign in on Thursday 14:00 at our table near Maritim II. You don't have to show up in suit to sign in, but be sure to be there early so we don't get a jam at the end!	Fursuit Photoshoot (Thalian) Just like last year, the studio will be open on three days. The registration for the photo shoot will open one hour before the actual shooting on each day. Just enroll in the list and get your estimated timeslot. Then you can suit up and come back about 10 minutes before your timeslot starts, which will minimize waiting times. If you have any questions, just ask the queue managers, which will be available at the entrance of the studio throughout the shooting.
Real Furies – Pt. 1 (Theodose) Just like almost every fan of anthropomorphic animals, you probably wondered how we could create them from humans (or animals) with realistic technology. Based on the latest discoveries in artificial organ fabrication and genetic engineering, this scientific talk will try to answer this question while not leaving out the societal and ethical issues laying ahead of such a challenge. As you will discover, fiction could become reality sooner than you might expect...	The Art of Dialogue (Alex F. Vance) From the Eye of Argon to Oscar Wilde, we explore the subtle art of dialogue: how to imbue your characters with life and depth, how to pace and space, and how to sustain plausibility.	Clips 'n' Bits (GoH) This is a unique opportunity to see some rare vintage 1960s Jim Henson commercials and videos before the Muppets became famous. This is probably the only chance of seeing this you will get. Our Guest of Honor Jim Martin will also share inside stories on Jim Henson and many other interesting people he has worked with throughout his career.	Professional Storytelling (kodayu) Do you want to make them feel the cold metal of the gun in a wolf's hand, rebelling against the oppression of humankind? Do you want them to shiver from the touch of a vixen's tail who is just walking by at a party? All you need is words! And this crash course about how to apply tricks of the professional writing trade to your furry stories!

The Breakfast Offered by the Hotel. Continental breakfast (EUR 9.60) or full breakfast buffet (EUR 17), to be paid at the door.	Restaurant "Da Capo" Enjoy the exquisite dishes from the regional and international cuisine.	Piano Bar Experience the world of international cocktails and choice drinks, enjoy wines, beer and snacks.	Art Show This year's Art Show again presents a multitude of international artists. See your favorites, bid on whatever you like, and buy art for your home!
Dealers' Den 1 & 2 Silk, jasmine, amber, orchids, jade, gold, porcelain and bamboo – the antique Asians were masters in writing, art and inventiveness. Everything was a little wonder of its own. The Dealers' Den on EF is even better. In both rooms, the Dragon Den (Salon Dresden) and the Phoenix Den (Hall Berlin), our famous furry artists and dealers await you with the most amazing merchandise. Books and sculptures, prints, comics and apparel are waiting for you, along with many other finely crafted items.	Introduction to Tai Chi (Tyger) A strange Chinese kind of sport? Gymnastics for older people? Just something against stress? A way of meditation or something religious? Or even a martial art? Tyger, who has been practicing the Xiaojia form of the Chen Style for the past 10 years, will explain the origins and meanings of Taiji quan (Tai Chi). There will be also a practical part to introduce some of the very basics of Taiji quan. If you want to participate, you should wear convenient clothing for unhindered movement and relaxation.	Drawing Vector Style (Blue_Panther) Vector art is everywhere, from company logos on car doors to the flags over the Eurofurence hotel entrance. Join Blue_Panther for a discussion of vector art and the unique, crisp styles and designs that it can help create. We will start with a brainstorming session on basic illustrations and design decisions, and then we'll move on to the techniques of Bezier curves which you can use for everything from car rear-window designs, title illustrations, to the planning and drawing of an entire comic.	Fancheng Action Theatre Game Session (Kandrel) Six Kung Fu masters have answered their master's cry for help, and find themselves fighting to free the ancient Fancheng District from the clutches of a vicious crime lord. Come participate or watch in this easy and beginner-friendly roleplaying game, filled to the brim with martial arts movie tropes, bad translations, and kick-ass kung fu. Sign up early in the game room to reserve one of the heroes!
Enter the Arena - Dance Contest (BigBlueFox) Enter The Arena is going to be Eurofurence's first Fursuit Dance Contest. It will feature a single performances mode and a dance-off mode in which the top four dancers are going to compete against each other until one winner remains.	Flute for Beginners (Kalaallit Amaroq) Are you a musician and/or do you want to discover the different types of flutes, how they work, or the history behind them? This workshop will shed some light onto those subjects. Some knowledge of music can be helpful, but is not required. There will be (short) live performances!	Fursuit Photoshoot (Thalian) Just like last year, the studio will be open on three days. The registration for the photo shoot will open one hour before the actual shooting on each day. Just enroll in the list and get your estimated timeslot. Then you can suit up and come back about 10 minutes before your timeslot starts, which will minimize waiting times. If you have any questions, just ask the queue managers, which will be available at the entrance of the studio throughout the shooting.	The Art of Description (Alex F. Vance) We're often told to "show, don't tell", but how do we "sell"? In this session we'll discuss finding the right level of detail to serve your scenes, how to keep narration fresh and interesting even toward the end of your novel, and how to feel the rhythm of your prose while you write it.
Convention War Stories (Uncle Kage) Many convention-goers remain blissfully unaware of the horrors that sometimes take place behind the scenes of a convention. Hear some of the secret testimony of the miserable souls who survived these terrifying ordeals.	The Hyper Anatomy Panel (Gideon) Join Gideon and discuss all things hyper. This panel will go into the psychology, whys, and hows of hyper endowed characters. Expect to laugh and, who knows, maybe learn something in the process. See you there!	Performing in full Body Costumes (GoH) In a fun and interactive way, the Guest of Honor Jim Martin will give hints and tips on how to make your fursuit character come to life. There will be advice on what to do, what not to do, and how to give an impressive performance in a fursuit. All of it is illustrated by three fursuiter performers, so please come and join the fun.	Fursuit Group Photo & Fursuit Parade (Mystifur) With roughly 40% of our guests being fursuiters, Eurofurence takes pride in being one of the major furry conventions with the highest fursuiter attendance. Having that many critters in an indoor parade though, the con hotel would just explode and turn into one giant ball of fluff.

<p>Real Furies - Pt. 2 (ANTIcarrot)</p> <p>In today's world, we have humans, and we have other animals. We also have a half dozen technologies and sciences that are likely to give us the ability to create 'real' anthropomorphics within our lifetime.</p> <p>The focus will be on what new technology can achieve within the rules of physics, not how things work within the current limits of biology. Last year we had a distinguished but elderly scientist say that some things about furies were impossible. He got some of it very probably wrong. This year, well... I'm an engineer. I solve practical problems...</p>	<p>Eurofurence Girl Cafe - Girls Only! (Pan Hesekeiel Shiroi & Sinea)</p> <p>Do you sometimes feel like being the only girl in the fandom? Do you even feel treated like a free-for-all? Do you feel lonely and misunderstood, always being surrounded by nothing but guys?</p> <p>It doesn't have to be this way! We are trying to gather lots of girls on EF to get to know each other, chit-chat and do all those things girls do when not surrounded by guys! We can laugh, cry and talk about everything under the sun, we can talk about creative things, we can pretty much do anything you want – you decide. If you want to get to know other female furies, please get back to us and help us gathering lots of girls. We are waiting for you!</p>	<p>The Fox Panel - Foxes as Pets? (Fauho)</p> <p>Curious? Join us and get to know what this creature really is about. Want to know about the locals in your neighbourhood but too lazy to sit in the cold for hours? I'll show you how you can easily find out more. And if a certain fox makes it in time, he'll come in person to tell you about his hard labour trying to keep foxes safe from nature's worst nightmare. And wow, in these modern great times where everything is for sale through the internet, you can finally have such a wonderful creature in your home on your lap. A dream too good to be true? Or a nightmare for the creature itself? Let's find out! A warm welcome to the world of the fantastic Mr. Fox.</p>	<p>Game Developers Meet & Greet Thygrrr)</p> <p>Video game developers, artists, designers and producers - join our yearly Meet & Greet at Eurofurence!</p> <p>Thygrrr and past years' round table regulars invite you to come and share opinions, experiences, and ideas with other furs working in the industry. Whether you've worked on video games in the past or are dreaming of a career in this exciting industry, everybody is welcome to join and mingle with us.</p> <p>The panel will be loosely split into tech and design/production round tables, meaning that it should offer plenty of opportunity for both techy and artsy types to find interesting things to discuss. Jacks of all trades are more than welcome to contribute to both circles, of course.</p>
<p>Artshow Closing</p> <p>The end of bidding in the show! During closing, the Art Show panels will be marked as closed one by one, determining which pieces will go to auction on Saturday, and which are won on the spot.</p> <p>This year, we will speed up the closing. Try to finish your bidding before closing starts. If you must place bids during closing, please have the completed bid stickers ready for placement. Be fair, no sniping!</p>	<p>Jam Session (MafunDi)</p> <p>Did you learn an instrument or teach yourself to play? Do you like singing? Or do you just love lounging in a relaxed bar atmosphere and listening to the sounds of other talented furs? Then the jam session is the perfect place for you.</p> <p>It's open to everyfur who would like to perform or sing along with well-known musicians. You can present compositions of your own or indulge in those well-loved old songs.</p>	<p>Game Corner (Xaneorath)</p> <p>You are invited to come by and play some board or card games with other furs. Whether you're looking for a fast-paced game to take a short break, or if you're planning to spend an evening with a complex strategy game, you've found the right place. We offer a great variety of games for you to choose from, and of course you can bring in your own if you like.</p>	<p>Bitter Lake - Movie Premiere (Shay)</p> <p>After more than a decade of peace the proud and noble kingdom of Valanor is suddenly torn apart by a terrible civil war. After 12 years, when the dust settles and resources have started to dwindle, the starving people of Valanor cry out for peace. Thus forcing the leaders of Tier, Sinnah, Daneth and Osgard to lay down their arms and meet each other at the negotiation table.</p>
<p>Artists' Lounge</p> <p>Do you like spending your evening around other artists, drawing and exchanging techniques? Then this social event, which takes place every evening, is the right place for you being all creative!</p>	<p>Fursuit Gameshow (Furvan & Atkelar)</p> <p>This year marks the sixth installment of the Fursuit Gameshow!</p> <p>The main stage event will take place on Friday evening at 21:30 – but if you make it there, you will have to make some time on Friday afternoon too for stage rehearsals! The winners of the preliminaries will be notified when to be there!</p>	<p>Dance Dance Revolution (Saber)</p> <p>Dance Dance Revolution (also known as DDR) is a popular rhythm game that makes you dance and jump to all kinds of music: Dance, Trance, Techno, J-Pop, Rock and more! You can try the game, play with your friends, or learn new techniques from expert players. Beginners and fursuiters are welcome</p>

Real Furies - Pt. 3 (Uncle Kage)

In part one and two the current possibilities and problems were covered. Now we're going to talk about the ethics behind creating new sentient beings. How would mankind deal with this strange new situation? Open minded or like in the dark age - with slavery and oppression?

Storytelling Round Table (Lupestripe)

The scene was set in the enchanted forest, deep in the heart of the German countryside. Furies from near and furies from far had gathered to frolic in this celebration of fur. The artists drew and the suiters performed whilst the writers gathered to share their ideas. All were welcomed with open arms as prose and poetry was discussed in a supportive environment. So if you are a writer who is looking for feedback, come along to the Storytelling Round Table to showcase your work.

The Year of the Rat (Pawpet Show)

It is the year 2032: The efforts to reunify Hong Kong and the People's Republic while trying to maintain two separate ideological systems are unravelling the Chinese Government's dominance. The people themselves and the new economic powers are now demanding their say in China's future. Despite strict censorship and constant surveillance, a small but active underground hacker community is waiting for the right moment to turn the tables. Their curiosity is piqued when a 16 Terabyte encrypted memory stick is dropped in their lap on the same day that the CEO of Black Crescent Advantage, China's biggest investment company, kidnaps his own daughter and vanishes without a trace.

Artists' Lounge

Do you like spending your evening around other artists, drawing and exchanging techniques? Then this social event, which takes place every evening, is the right place for you being all creative!

Game Corner (Xaneorath)

You are invited to come by and play some board or card games with other furs. Whether you're looking for a fast-paced game to take a short break, or if you're planning to spend an evening with a complex strategy game, you've found the right place. We offer a great variety of games for you to choose from, and of course you can bring in your own if you like.
